Mylne's Register of Yachts 2012

Welcome to the 2012 issue of Mylne's Register of Yachts. This year we have updated our records and you will find over 180 existing Mylne yachts listed within these pages - and these are only the yachts which we know of directly. The Register is based on the records of the Mylne office gathered and compiled as part of the ongoing work of cataloguing the archive of designs, and the details of the 600+ yachts built to those designs.

The information is presented in the format of the old Lloyd's Register of Yachts which ceased production in 1984.

Each yacht has its own special history, but here we only have space to list the most basic particulars. You will note that there are still many blank spaces. If you can help fill in the blanks spaces, provide corrections, or tell us about a yacht that should be listed but is not, then please get in touch.

The Editor
